FROM ONE OF THE THIRD'S SOLDIERS.—Savannah, Ga., May 10th, 1899.—To the Editor of THE OUTLOOK.—Dear Editor: I feel it is my duty to write one more letter to your paper before quitting the service of the U. S., as we are now camping on our last camp-ground and on the 16th of this month the 3d Kentucky Regiment will cease to be an organization of the volunteer army which was banded together in behalf of liberty and humanity. So after one year of rebuffs and disappointments we will now discard our uniforms, lay aside the duties of a soldier, return to our "Old Kentucky Homes" and again join in the peaceful pursuits of civil life. We have proved our willingness to go to the front and to help to plant our flag in the tropical clime, but our bravery as a regiment will go down in the history of this war untested. Owing to the weakness of Spain the war was short and decisive and we could not get a chance to fight any battles. So we must now retire from the service without displaying any courage or winning any laurels upon Cuban battle-grounds. But our short stay in Cuba for garrison duty will always reflect great credit upon our State and nation, for as soldiers we performed our duties in a soldierly way and at the same time we impressed the Cubans with the hospitality of the Kentuckians and won their respect and admiration, which shall be as lasting as memory. When it became known to the people of Cardenas we were going to leave there for Matanzas and the 12th N. Y. Regt. would take our places they expressed much regret at the change, and the Mayor of the town spent seventy-five dollars in sending telegrams to General Brooke at Havana to have the order revoked and keep us there until we left the island for the States. They will always love and revere the name Kentucky. We were all overjoyed at the move we were making, for our faces were at last turned homeward, knowing our services were no longer needed by our Government. Leaving behind us a record we will recall with pride, and extending to Cuba our best wishes, hoping they will soon frame for themselves a stable government which will insure for them contentment and prosperity at home, tranquility and peace abroad, and in peace they may enjoy the freedom they have so dearly purchased by long suffering and privations. For War is the bitterest thing on this earth, and the sword should not be appealed to as an arbitrator to settle complications between nations until everything else has failed. Our cause for war with Spain was both righteous and just and is recognized as such by all the civilized nations of the world. The God of battles has given us victories over land and sea that will go down in the annals of war without an equal and shall proclaim us the world's greatest champions of liberty and shall retain for us the admiration and respect of all the nations of the world. We have taught the world a lesson that history will record for that; that is, in peace we are the most peaceful and in war we are the most daring and determined, and when our national honor is at stake we rise above party lines and stand together as a unit, fighting for the same flag. The sons of those who wore the blue and the sons of those who wore the grey stood shoulder to shoulder in this war defending the Stars and Stripes and the Union, and the most intense feeling was buried in the trenches of Santiago de Cuba. We all return one people, conquerors and unconquerable, hoping to remain at peace with all people, though ready at any time should our country call for us. With each creditable and noble deed of bravery and valor, North and South, East and West, each helping to brighten the pages of our history and to make us one great and strong nation, so that every one will be glad they are off.

I was down to see E. O. Saunders, of Sharpsburg, who is in the 1st Tenn. He is well and looking well. The Tennesseans are all right and know how to fight. I am well and enjoying such as this life affords. Guard duty is heavy. I will write again. With best wishes to all my friends and companions I remain,

And the straw will be handled easily, without the slightest trouble and almost no litter, if you use the Nichols-Shepard Separator. It oscillates automatically, is easily swung to right angles with the separator to carry the straw to either side. This separator has been demonstrated by thorough and practical tests in the field to be the handiest, most efficient swinging stacker ever attached to a thrasher. Like every other feature of the

Arizona, and on the 25th sailed for Manila, the 52d Iowa and 18th Regulars, also a battery of the 6th U. S. Artillery. We lay in Iloilo Bay until Feb. 11th. In the meantime the Iowa regiment was ordered back to Cavite, and we were alone, crowded up just like rats in a box.

On the night of Feb. 10th the Tennesseans came in from the bay and anchored close to the Arizona. On the morning of the 11th everything started off as usual.

There was some excitement, as the Tennesseans had brought a report of the outbreak in Manila, where they took part. The insurgents must have gotten word in some way, for at 9 a. m. they fired from the fort with a Mauser rifle on the Petrel. We were eating our morning meal when the Petrel opened fire on the walled fort or city, followed immediately by the Boston. It was a grand sight. The insurgents were firing as they went.

Well, we weren't long landing. We landed by battalions in the ship's boats towed by small launches, the 1st, 2d and 3d. My company belongs to the 2d Battalion. We were ashore by 11 a. m. Then the fun began. We marched through the city to the bridge across Iloilo river, occasionally seeing a firing native. We camped there all night, and on the 12th the Second Battalion alone, with one Gatling gun and one Hotchkiss gun, advanced on Jaro and captured it, where we are today awaiting re-enforcements. We have had three battles with them since we have been here: 1 on Feb. 14; our forces consisting of Company A and 24 men of Co. H under Major Keller run the natives back about 24 miles. We lost 1 killed and 1 wounded. All told Co. A has lost 2 killed and 4 wounded. The regiment has lost about 5 killed and 30 wounded. The First Battalion had a battle on Mar. 1, and drove them from their trenches, and again on Mar. 16 we had a hard fight and run the insurgents out of their trenches, but not until we had advanced within 100 yards of their lines. Then they broke and ran.

Everything is quiet today. As soon as the troops arrive I think the insurgents will surrender, as it is reported they are cut all to pieces in Santa Barbara, their stronghold.

This is a beautiful, as well as rich, island. There is some nice farming country. The chief products are sugar cane and rice. There are fruits of all kinds here,—that is, tropical fruits. We have seen sugar to build embankments in one or two instances. The Spanish have not occupied this town for over 2 years. It is a beautiful place, but I long to see my "Old Ky. Home" once more. I have put in about 15 years wandering over the U. S., and if I'm spared to return this time will be contented to remain.

I was down to see E. O. Saunders, of Sharpsburg, who is in the 1st Tenn. He is well and looking well. The Tennesseans are all right and know how to fight. I am well and enjoying such as this life affords. Guard duty is heavy. I will write again. With best wishes to all my friends and companions I remain,
